It appears that there were 4 Constables voted in each election but when results are shown, all that ran are listed with their number of votes. In those instances, the 4 with the highest votes are listed above; if it is not clear due to ties, none are listed.

*1925 Constable: The results showed that John Schad was the only Democrat that won and the remaining winners were Republicans but the news article did not indicate which of the Republicans that ran, won. One of the names listed in parenthesis ran but did not win.
